## Global Presence

# OUR HISTORY

Backed by 20 years in the aviation and travel industries, Scott brings strong leadership, innovative vision and dynamic initiative in his role as President and CEO of **Worldwide Charter International**. Scott was first introduced to the travel business in secondary school when he launched and built a student travel company from the ground up which grew to be the largest of its kind in Canada.

Following that achievement, Scott expanded south into the US travel market where he successfully owned and operated a sports marketing firm. Building on his wealth of industry expertise and in search of a new challenge, Scott diversified into the aviation industry where his travel agency experience and education in Business Economics lead him to his current role as CEO of **Worldwide Charter International**.

Scott's leadership has been the driving force behind the continued success of the **Worldwide** team as well as its exciting expansion from an adhoc charter brokerage to a full service aviation management company.

Our mission: At **Worldwide Charter International**, our strength lies in the power of our global relationships. With over 25 years of experience in the industry, clients and providers alike trust our team's knowledge and ability to bring your charter vision to reality.

“GROUPS RANGING FROM 2,000  
TO 40,000 PILGRIMS.”

# HAJJ

Hajj is one of the largest annually occurring pilgrimages in the world. We have been honored to play a role in the facilitation and transportation of tens of thousands of pilgrims to Mecca over the past 20 years.

We have successfully provided ACMI and full charter transportation annually for groups ranging from 2,000 to 40,000 pilgrims.

Our process begins months in advance to this operation which we have divided in two phases:

## PHASE

# 1

During the **Departure Phase**, our focus is on transporting pilgrims from their home countries to Mecca or Jeddah. We make sure to send our staff to the site 2-3 days before the first flight to ensure smooth logistics. Our personnel remain available round the clock to oversee continuous flights, monitor incoming ferry flights, secure parking areas, handle ground operations, handle ticketing and baggage tagging and loading, arrange for fueling, coordinate with the crew for transportation, and ensure the provision of our specialized catering service.

## PHASE

# 2

The **Return Phase** begins after Hajj ends. Our primary objective is to facilitate a seamless and tranquil journey back home. Our staff is present at different terminals to handle baggage, ticketing, and accounting for all pilgrims. We also provide assistance to the weak, ill, and elderly who require extra support after weeks away from home.

Worldwide has had the privilege and opportunity to coordinate and assist in the movement of pilgrims from many different countries, and across different continents. This diversity of experience has strengthened and enhanced our skill set in delivering premier aircraft and logistics solutions to our continuously growing base of Hajj clients. We guarantee our clients a diverse selection of aircraft options each year, striving to provide the most efficient and cost-effective choices for their pilgrim allotments.

# CHARTERS

Whether it's business, adventure, tourism or sports that your heart is set on, **Worldwide** shares your passion to get in on the action. Regardless of your group size or destination, we have the right aircraft for every sports team, club, tour organization and fan group.

Recognizing that the magic is in the details, we are experienced and skilled in managing all special requests, including VIP aircraft, FBO services, unique nutritional requirements, and much more. Use our teamwork to make your dream work!

# WORLD CUP FOOTBALL CHARTERS

## • SOUTH AFRICA 2010

South Africa hosted our first World Cup and we delivered. Fans from three continents (America, Europe, and Africa) were transported to Johannesburg, followed by regional flights within the country. **Worldwide Charter International** expertly managed logistics, ensuring our passengers had an unforgettable World Cup experience.

## • RUSSIA 2018

**Worldwide Charter Int.** had one of our largest operations to a sporting event, where we managed to mobilize around 6,000 fans to Russia. Additionally, we offered domestic services to different tour operators to transport fans to 11 cities around the country. All of this was possible thanks to our advance planning and our inventory of wide and narrow body aircraft that we had available for this event.

## • BRAZIL 2014

When the time came for Brazil in 2014, we were prepared to transport around 6,000 fans and logistics staff. This time we had several wide body planes for the task (Airbus A340 and Boeing 767) and we transported customers from 3 different continents (America, Europe and Africa). Just as we did in the previous world cup, we had personal on site 24/7 ready to ensure fans' satisfaction.

## • QATAR 2022

For the world cup we embraced the opportunity to provide our charter administration services where we provided aircraft and logistic support for the fan flights, assuring the successful execution of the world cup from a logistics stand point.

# TOURISM
